

Eiffage in Poland

Building the present, **shaping the future**

Eiffage exceeds the limits of imagination...

Eiffage is one of the largest construction groups and concession operators in Europe. The company developed many prestigious and spectacular projects all over the world. Among them there are Public-Private Partnership investments, modern and environment friendly developments and outstanding cubature buildings:

-  **Viaduct in Millau** – the highest cable-stayed bridge in the world
-  **Norscut Motorway** in Portugal
-  **Medical Center CHSF** in France
-  **High-speed TGV railway** in Belgium, France and Spain

...and makes **dreams** come true

The newest construction challenges of **Eiffage** are:

-  **Football stadium in Lille** – the most modern development of this kind in France
-  **LGV Bretagne-Pays de la Loire** – high-speed railway route which connects all major cities in the West of France

The top spot on the list of revolutionary ideas of Eiffage is occupied by:

-  **Phosphore in Marseille** – the vision of an eco-city of the future

Areas of **activity**

Eiffage is a major player in five different construction market sectors:

-  **Eiffage Construction** – building and property development
-  **Eiffage Travaux Publics** – civil engineering and road construction
-  **Eiffage Energie** – internal installation projects
-  **Eiffel** – steel structure design and development
-  **Eiffage Concessions** – concessions and PPP projects

General Contractor **Eiffage Budownictwo Mitex** is an experienced and highly recommended company on the Polish construction market. Eiffage Budownictwo Mitex is the leader of Eiffage group in Poland. The company offers an all-embracing service and professional support in the development of:

-  Office buildings
-  Retail facilities
-  Hotels
-  Housing estates and residential buildings
-  Education and culture centers
-  Sport developments
-  Industrial projects

Eiffage Budownictwo Mitex developed an Integrated Management System confirmed by certificates: ISO 9001, AQAP 2120, ISO 14001 and PN-N 18001. In 2011 the project management in the company has been improved by introducing Microsoft Dynamics AX 2009. This high-tech IT solution enables full control over every stage of the construction process. We build on reliability, mutual trust, transparency and client-oriented solutions.

Our **portfolio**

- 120** swimming pools and sport halls
- 90** housing estates
- 80** education and culture centers
- 70** office buildings
- 40** industrial projects
- 40** hotels
- 30** retail facilities
